APPENDIX A

27. (Amended) A method of providing a work-at-home telecommunication service, the method comprising:

(a) receiving a dialed number from a calling party, said calling party being associated with a calling party identification number; [and]

(b) automatically modifying the calling party identification number to an identification number of a group associated with the calling party; and

(c) automatically modifying a billing identification number of the calling party to a billing identification number of the group associated with the calling party.

41. (Amended) The method of claim [40] 27 further comprising the step of creating a billing record based upon the modified billing identification number.

42. (Amended) The method of claim [40] 27, wherein the billing identification number comprises an ANI number.

44. (Amended) A system for providing a work-at-home telecommunication service, the system comprising:

means for receiving a dialed number from a calling party, said calling party being associated with a calling party identification number; [and]

means for automatically modifying the calling party identification number to an identification number of a group associated with the calling party; and

• means for automatically modifying a billing identification number of the calling party to a billing identification number of the group associated with the calling party.

45. (Amended) A system for providing a work-at-home telecommunication service, the system comprising:

a service control point operative to automatically modify a calling party identification number to an identification number of a group associated with the calling party in response to a query; and

a signal switching point coupled with the service control point, the signal switching point being operative to send said query to the service control point;

wherein the service control point is further operative to automatically modify a billing identification number of the calling party to a billing identification number of the group associated with the calling party.

53. (Amended) The system of claim [52] 45, wherein the service control point is further operative to create a billing record based upon the modified billing identification number.

54. (Amended) The method of claim [52] 45, wherein billing identification number comprises an ANI number.
